This is a take off of the Fu Flying Dragon Sword. As with all sword forms and movements the characteristic of the sword is the Phoenix or a bird in flying. Swift and smooth. Spinning, slashing, splitting, deflecting, and stabbing. Footwork and movements are to be done quick, light, and lively. With this particular form consider yourself surrounded and fighting your way out.

*Some styles and systems choose to highlight 5,8,10,13 or more different energies with sword movements. Instead of being restricted to the 8 of Bagua, the 10 of Sun Lu Tang, the 13 of Taiji, or the 14 of Wushu, this list includes all I've seen listed, even the ones I'm not familiar with.
